

Our COVID-19 vaccine clinic last Friday for students aged 5-11 was a success! If your child received a vaccine on Friday, you should have received an appointment for the second shot on December 3.

Because of this we will have a district-wide calendar change. Friday, December 3 will be a NO SCHOOL day for ALL district students and teachers. This will help eliminate the substitute shortage we had last Friday due to the clinic. More importantly, this will give our teachers and students a day to practice both physical and mental well-being.

The only school activities that will occur are any regularly scheduled winter athletic practices and/or games.
